

## André Borrmann

André Borrmann studied civil engineering at the Bauhaus University Weimar and received his doctorate in the field of Construction informatics from the Technical University of Munich (TUM) in 2007. Since 2011, he has been heading the Chair of Computational Modeling and Simulation at TUM and has been spokesperson for the Leonhard Obermeyer Center of Digital Methods for the Built Environment since 2013. In addition, he was Interim Director of the TUM Georg Nemetschek Institute from 2021 to 2022. Prof. Borrmann has co-edited four books, is the coauthor of more than 250 peer-reviewed publications and has received several international awards for his research work. His main research field is the technological advancement of Building Information Modeling (BIM)

covering all its facets from geometry processing over data management to semantic reasoning.
